

TINY-B

THE TINY BOTTLE WITH
MAXIMUM FLEXIBILITY

DESCRIPTION

The Tiny-B aluminium bottle is a versatile all-rounder. Thanks to its GL18 thread it can be combined with all kinds of closures and applicators, for instance dropper inserts, pipettes, roll-on applicators and spray pumps.

However, the smallest of our bottles can do even more. Like all larger LINHARDT bottles, the Tiny-B is shatterproof and offers outstanding barrier properties, but is also lightweight and 100% recyclable.

TECHNISCHE DATEN

- Diameter: 22 mm
- Lengths: 5 mm – 160 mm
- Fill volume: 5 mL – 50 mL
- Thread: GL18
