

# MIDI-B

THE VERSATILE BOTTLE  
MADE OF 100% ALUMINIUM

## DESCRIPTION

Depending on the application and the desired look, our aluminium bottle with a diameter of 35 mm can be implemented with the standard GCMI 24/410 thread or the PP18/ROPP18 thread. This creates an even wider range of options for applicators and closures that can be used for this range. Sealing foils for tamper-evident security can also be applied.

The general advantages of our LINHARDT bottles are obvious: The aluminum bottle is lightweight, shatterproof, opaque, aroma-proof and endlessly recyclable.

And also a noble eye-catcher!

## TECHNICAL FEATURES

- Diameter 35 mm
- Length 80 mm - 155 mm
- Brimful volume: 50 ml - 120 ml

## YOUR ADVANTAGES

- Possible applications: Spray pump, screw cap with or without child protection
- GCMI 24/410 thread or PP18/ROPP18 thread
- Lightweight
- Shatterproof
- Food compliant coatings possible
- Excellent barrier properties: light impermeable & aroma-proof
- 360° inline direct print, starting from MOQ 25,000 pieces, no label required
- Metal recycles forever
